Product	Highlights
 <p>3D Printed Polycarbonate Table Lamp Prototype by HK3DPRINT Co Ltd – Hong Kong Product Zone: Decorative Lighting Booth no.: 1C-F06</p>	<ul style="list-style-type: none"> - 3D printing makes highly complex designs possible, cost effectively produced directly from 3D CAD files in just a few days - This table lamp prototype is 3D printed in Polycarbonate using HK3DPrint's Stratasys Fortus 3D Production System - Polycarbonate is one of the most widely used industrial thermoplastics with high tensile and flexural strength and heat resistance, and is ideal for functional testing prototypes and end-use components for lighting products
 <p>RIPPLE by Next Generation Lighting Source Co., Ltd. - Taiwan Product Zone: Hall of Aurora Booth no.: 1D-B09</p>	<ul style="list-style-type: none"> - The LED lamp with its unique water drop shape is designed to float and exposed on the water - Put it on the water can let the light flood out; take it from the water and let the lights fade out - Comes with sophisticated color and light weight - Designed for a day to day use, easy and fast operational - Suitable for indoor and outdoor use, bringing an exceptional life of style for a chill-out and relaxed ambience

Design Table Lamp and Floor Lamp by
Dreambox (HK) Ltd. – Hong Kong
 Product Zone: Decorative Lighting
 Booth no.: 1C-F15

- Encourage simple lifestyle with natural and fresh design
- Products are made with biodegradable and eco-friendly materials to support green living

Multi-Purpose Decorative LED Light (PAR38) by
Sunsi Australia Power Energy Ltd - Hong Kong
 Product Zone: Hall of Aurora
 Booth no.: 1E-B28

- Using nanotechnology, it has superior heat dissipation using a relatively small surface area, allowing for high wattage and bright lumens in a light body structure
- High quality driver ensures no flickering and no weariness to human eyes under prolonged exposure
- Smooth surface housing provides a drawing board for consumers to freely express themselves

Motion Sensor LED Bulb by
Acrox Technologies Co., Ltd. - Taiwan
 Product Zone: World of LED - Indoor
 Booth no.: 3C-E13

- Patented product
- Detect movement from a distance of 4m and above (normal sensor bulbs around 2 – 5m)
- Have wide sensing angle of 120 degrees (normal sensor bulbs only around 90 degrees)
- Dimmable from 1 – 100% light

All Plastic Luminaries by
iBrain Technology Ltd – Hong Kong
Product Zone: Hall of Aurora
Booth no.: 1E-D25

- By using revolutionary “Graphene” Modified Thermally Conductive Plastic (GMP) to replace Aluminium Alloy as the media for heat dissipation, material and production costs have been dramatically reduced
- Unlike other manufacturers, this GMP neither consists of any metal oxide nor ceramic composite, hence overall mechanical characteristics are virtually identical with ordinary plastic, with significant merits over Al Alloy in weight, robustness, fast assembly, electrical insulation and most importantly, at a fraction of the cost of Al Alloy

Window by
Flex Boxlight Co., Limited - Hong Kong
Product Zone: Display World
Booth no.: 1C-A02

- A highly transparent LED screen with excellent visual effect
- Thin and crystal-like material provides a high-end image to end-user
- Light-weight material and special installation design with handle makes installation and maintenance effortless
- Can be placed on outdoor facade for video display, which is highly effective for advertising and marketing purpose

MRC Green Lighting Technology & DIY Advertising Light Box by
MRC Technology International Limited
- Hong Kong

Product Zone: Display World
 Booth no.: 1C-B15

- MRC products are reliable and patented with unique energy saving technologies, reduce energy consumption by over 80%, meet US LEED standard with high CRI over 90 which provides high color revivification degree
- MRC DIY Advertising Light Boxes, are unconventional, frameless or with frame, mobile, long life span, eco-friendly, easy to install & maintain with competitively low total cost of ownership
- The unique distribution of light evenly enhances illumination quality, display performance and cooling system with maintenance free

Luci Downlight by
Lucibel Asia Limited - Hong Kong
 Product Zone: World of LED - Indoor
 Booth no.: 3C-B21

- Built in with a state-of-the-art anti-glare reflector and a super-slim casing, it is made for intensive use for modern architecture
- Product comes with 1 pair of special fixation flap to provide special false-ceiling protection during installation
- Available at 11W, 15W and 22W
- Whole R&D process is managed by Hong Kong development team in collaboration with project members in China & France

LED PIR Sensor Light by
iPlus Technology Company - Hong Kong
 Product Zone: World of LED - Indoor
 Booth no.: 3C-C11

- Built-in photosensitive resistance and PIR sensor
- Can be stick on anywhere and operates without wiring required
