Organiser 主辦機構:

Co-organiser 合辦機構:

**Ir Dr David M.H. Chan, Co-Founder & Director, Negawatt Utility Limited**

庫瓦有限公司共同創辦人及董事 陳文謙博士工程師

Mr. Holland is the Chief Operating Officer and co-founder of En-trak. He has overseen the development of the company's award-winning energy management platform, En-trak Energy, as well as their latest Smart Office solution based on advanced lighting and aircon controls. He currently oversees the operations and product development teams at En-trak.

Mr. Holland graduated from Harvard University with a degree in Molecular and Cellular Biology.

Prior to founding En-trak, he worked in both Hong Kong and mainland China on photovoltaic solar projects, from procurement and due diligence to design and installation.

En-trak is a smart building solutions provider. We build and sell software solutions to improve building efficiency, streamline operations and reduce costs, all while making buildings better places to be.

Whether it's making buildings more efficient or delivering engaging, personalised experiences for occupants, En-trak's smart building solutions enable you to get more out of your building through simple but innovative ingenuity. We service hundreds of customers across Asia, from multi-building property portfolios to world-class convention centres to international schools.

En-trak is backed by prominent players in the energy and technology industries, including CLP and Alibaba.

**Mr Tyler Holland, Chief Operating Officer, En-trak Hong Kong Limited**

En-trak Hong Kong Limited 首席營運官 Tyler Holland 先生

David is the Director of Negawatt Utility Limited and has vast experience in building management. His expertise in building management including facility management, indoor environmental quality, energy optimization and big data analytic. Since late 2015, he led a team of engineers and IT programmers by designing a cloud platform to assist building owners to achieve digital transformation to improve the quality of properties of all kinds, from office to factory buildings. As of 2019, David is managing different clients, such as Sun Hung Kai Properties, Towngas, HAECO and many more. David has one aim, and it is to utilize the most appropriate & innovative technologies available to shape more smart buildings in Hong Kong and around the globe, to enhance the sustainability level of buildings to find balance between indoor health and energy use.

**Mr Chaozhou Chen, Consulting Manager, Planon Hong Kong Limited**

Planon Hong Kong Limited 顧問經理 陳超洲先生

Chaozhou Chen is currently working in Planon Hong Kong as Consulting Manager. He has over 4 years of experience in the IT industry focusing on Building Operation domains including Building Information Modeling (BIM), Internet of Things (IoT), Integrated Workplace Management System (IWMS), Real Estate and Facilities Management (REM&FM), ERP and BI. He has received his Masters degree in International Management from Tilburg University, the Netherlands.

Planon is a global company with over 35 years of facilities management experience. Since 2018 and again 2019, Planon is the world leader in providing software that supports organisations who aim to optimise workplaces, services and assets. Planon delivers innovative software, proven best practices and professional services that increase workplace productivity and cost efficiency.
